How to use

The document begins with a list of headings that are hyperlinked to the corresponding section in the document. This will make it easier for you to navigate your way around the document. All the journals listed except the BMJ (this is available online) are held in the David Adams Library. Please note that the BMJ is now a fully online journal. This means that all of the references published here are available online, some may be published in the paper version others are not. For those employed by the NHS you will have access to the BMJ using your NHS Athens account. If you need help obtaining any of the papers listed here please contact your local library, for Marsden staff please contact the David Adams Library.

The journal titles that are indexed for this bulletin are listed on the last page. If you would like to see any back issues of the bulletin they can be retrieved from the website below: http://www.londonlinks.ac.uk/current_awareness

Courses in the School of Cancer Nursing and Rehabilitation

Lymphoedema in Cancer Practice
Duration: 5 days
Dates: 16, 17, 18, 23, 24 November 2009
Credits: 20 credits at level 6 (degree)
Course Summary: This specialist module uses a variety of both classroom and practical sessions to give the health care professional an opportunity to gain a deeper insight into the causes and management of this chronic condition. Bursaries through Katie’s Lymphoedema Fund are available to applicants from hospices and NHS organisations.

Chemotherapy in Cancer Practice
Duration: 5 days
Dates: 25, 26, 27 November, 10, 11 December 2009
Credits: 20 credits at level 5 (diploma) or level 6 (degree)
Course Summary: This course aims to develop nurses to become competent in the administration of cytotoxic chemotherapy. A combination of theoretical and work based learning will provide students with the opportunity to develop the necessary skills to administer chemotherapy and to critically assess, plan and implement individualised care.

Stem Cell Transplantation in Cancer Practice
Duration: 5 days
Dates: 30 November, 1, 2, 3, 4 December 2009
Credits: 20 credits at level 6 (degree) or level 7 (masters)
Course Summary: This module will increase your understanding of the theoretical and practical aspects of care, treatment and rehabilitation or patients undergoing haemopoietic stem cell transplantation. Students can undertake this course along with the module ‘Haemato-Oncology Care in Practice’ to achieve a CPPD qualification.
