How to use

All the journals listed in this bulletin are those that the David Adams Library has a subscription to, except the BMJ (this is available online for NHS staff via your NHS Athens account). Some journals are now only available online. This is the case with the European Journal of Cancer Care and Psycho-Oncology. Please check with your local healthcare library about obtaining papers from these electronic journals, for Marsden staff please contact the David Adams Library.

CancerAware uses a referencing style called ‘CancerAware’ which is different from the Harvard style. If you wish to use any of the references contained in CancerAware for academic study you will have to adapt the references to fit in with the style of the academic institution that you attend. The CancerAware style incorporates the minimum information needed to find the reference/paper and incorporates the Digital Object Identifier – if available – for easier retrieval.

ART AND ART THERAPY
Hanson, H. et al. (2013) Preferences for photographic art among hospitalized patients with cancer [online exclusive]. (research) Oncology Nursing Forum, 40(4) pE337-45. doi: 10.1188/13.ONF.E337-E345

BREAST CANCER
Andrzejczak, E. et al. (2013) Partner relationships after mastectomy in women not offered breast reconstruction. (research) Psycho-Oncology, 22(7) p1653-7. doi: 10.1002/pon.3197
Hubbard, G. et al. (2013) Relational mechanisms and psychosocial outcomes in couples affected by breast cancer: a systematic narrative analysis of the literature. (review) BMJ Supportive & Palliative Care, 3(3) p309-17.

Lally, R. M. et al. (2013) **Unsupportive social interactions in the weeks immediately following breast cancer diagnosis.** (research) *J of Psychosocial Oncology, 31*(4) p468-88. doi: 10.1080/07347332.2013.798758

McGarry, S. et al. (2013) **An exploratory study into the unmet supportive needs of breast cancer patients.** (research) *European Journal of Cancer Care, 22*(5) p673-83. doi: 10.1111/ecc.12076

Nilsson, M. I. et al. (2013) **Women’s reflections and actions regarding working after breast cancer surgery - a focus group study.** (research) *Psycho-Oncology, 22*(7) p1639-44. doi: 10.1002/pon.3192

Ploos van Amstel, F. K. et al. (2013) **Distress screening remains important during follow-up after primary breast cancer treatment.** (research) *Supportive Care in Cancer, 21*(8) p2107-15. doi: 10.1007/s00520-013-1764-0

Pullens, M. J. et al. (2013) **Chemotherapy and cognitive complaints in women with breast cancer.** (research) *Psycho-Oncology, 22*(8) p1783-9. doi: 10.1002/pon.3214

Stinesen-Kollberg, K. et al. (2013) **Worry about one’s own children, psychological well-being, and interest in psychosocial intervention.** (research) *Psycho-Oncology, 22*(9) p2117-23. doi: 10.1002/pon.3266

Thewes, B. et al. (2013) **Fear of cancer recurrence in young early-stage breast cancer survivors: the role of metacognitive style and disease-related factors.** (research) *Psycho-Oncology, 22*(9) p2059-63. doi: 10.1002/pon.3252

Thompson, J. et al. (2013) **Levels of distress in breast cancer survivors approaching discharge from routine hospital follow-up.** (research) *Psycho-Oncology, 22*(8) p1866-71. doi: 10.1002/pon.3229

CANCER EMERGENCIES

Ahn, S. et al. (2013) **Adding procalcitonin to the MASCC risk-index score could improve risk stratification of patients with febrile neutropenia.** (research) *Supportive Care in Cancer, 21*(8) p2303-8. doi: 10.1007/s00520-013-1787-6

CANCER : GENERAL

Saini, A. et al. (2013) Restless legs syndrome as a cause of sleep disturbances in cancer patients receiving chemotherapy. (research) J Pain Symptom Manage, 46(1) p56-64. doi: 10.1016/j.jpainsymman.2012.06.018
