**BREAST CANCER**

Anderson, DJ et al. (2011) **Younger and older women's concerns about menopause after breast cancer.** (research) *European J of Cancer Care*, 20(6) p785-94. doi: 10.1111/j.1365-2354.2011.01282.x

Blackmore, S. (2011) **Survey finds breast disease is women's greatest fear.** (research) *Cancer Nursing Practice*, 10(9) p6.

**Breast Cancer Care**

**11, 12, 13, 14 and 15 June 2012**

**15 credits at Level 6 or 7**

**£825**

This module will ensure nurses and allied health professionals, working with patients with breast cancer, gain greater knowledge and insight into the disease and its impact, to enable them to develop appropriate care and services. The student will develop the theoretical knowledge, practical skills and attitudes required to assess and meet the needs of individuals with breast cancer and their families.

To apply or to find out more information on these modules and the range of other courses we offer at The School of Cancer Nursing and Rehabilitation, please contact us on **020 7808 2900** or by e-mail at **school@rmh.nhs.uk**

**Manual Lymphatic Drainage: Leduc Method**
18, 19, 20 January, 8, 9, 10 February and 1 March 2012
Sponsored by Katie’s Lymphoedema Fund

This seven day course is open to healthcare professionals who have attended the School’s ‘Lymphoedema in Cancer Care’ module or an equivalent course. Led by Jane Wigg, the only authorised trainer of the Leduc method of Manual Lymphatic Drainage in the UK, support will be provided by Mary Woods, Clinical Nurse Specialist / Head of Lymphoedema Services at The Royal Marsden NHS Foundation Trust.

Katie’s Lymphoedema Fund will be supporting twelve places on this course available for Nurses and Allied Health Professionals, working in cancer care, who offer services that patients do not pay for.

To apply or to find out more information on these modules and the range of other courses we offer at The Royal Marsden School of Cancer Nursing and Rehabilitation, please contact us on 020 7808 2900 or by e-mail at school@rmh.nhs.uk

Morris, G et al. (2011) Physical performance outcomes of stem cell transplant recipients do not reflect their exposure to glucocorticoids. (research) Rehabilitation Oncology, 29(3) p9-14.

**Lymphoedema in Cancer Care (blended learning)**

23 April – 22 June (includes 2 practical workshop days on 21 and 22 May 2012
15 credits at Level 6
£825 (bursaries available from Katie’s Lymphoedema Fund)

This module allows students to gain a deeper insight into the causes and management of this chronic condition. In addition to exploring the evidence base for the care of cancer related lymphoedema, the module provides an opportunity to learn and practice the practical skills of compression bandaging. This module is delivered using a blended learning approach which includes online activities over the duration of the module and two days of classroom based workshops.

To apply or to find out more information on these modules and the range of other courses we offer at The Royal Marsden School of Cancer Nursing and Rehabilitation, please contact us on 020 7808 2900 or by e-mail at school@rmh.nhs.uk
