How to use

All the journals listed in this bulletin are those that the David Adams Library has a subscription to, except the BMJ (this is available online for NHS staff via your NHS Athens account). Some journals are now only available online. This is the case with the European Journal of Cancer Care and Psycho-Oncology. Please check with your local healthcare library about obtaining papers from these electronic journals, for Marsden staff please contact the David Adams Library.

CancerAware uses a referencing style called ‘CancerAware’ which is different from the Harvard style. If you wish to use any of the references contained in CancerAware for academic study you will have to adapt the references to fit in with the style of the academic institution that you attend. The CancerAware style incorporates the minimum information needed to find the reference/paper and incorporates the Digital Object Identifier – if available – for easier retrieval.
