e-Learning for Healthcare www.e-lfh.org.uk/

e-LfH is a Health Education England programme in partnership with the NHS and Professional Bodies to support patient care by providing free, high quality e-learning for the training and education of the healthcare workforce across the UK. Over 100 programmes of e-learning are available, covering a wide range of topics.

BMJ Learning www.tinyurl.com/bmjlearningLondon

BMJ Learning comprises over 1,000 learning modules. It includes both clinical and non-clinical content.

Medical Masterclass www.medical-masterclass.com/

eLearning resource produced by the Royal College of Physicians. It is targeted at trainees preparing for the MRCP(UK) examination.

This resource is distributed across acute trusts in London.

Additional eResources

<https://openathens.nice.org.uk/Auth/Login>

Please log in to your NHS OpenAthens account to check for additional eResources available locally.

How to access eResources

HILO www.hilo.nhs.uk is your gateway to high-quality health information online compiled by the London Health Libraries network for NHS staff and students on placement as well as those working with the NHS in London.

To access eResources you will need to register for an NHS OpenAthens username and password, at <https://openathens.nice.org.uk/>

In order to register automatically you will need your NHS email address or be on an NHS computer and will need to know your NHS employer.

If you require further information or training on how to access health information resources, please contact your local healthcare library. Details available from the Health Library and Information Services Directory

eResources

A range of eResources is available to all NHS staff and students on placement as well as to those working with the NHS in London.

eJournals www.library.nhs.uk/booksandjournals/journals

MyJournals provides an A-Z list of over 6,000 full text electronic journals available to you and details of print journals held in your local healthcare library.

eBooks <http://lib.mylibrary.com>

Online access to the full text of over 400 eBooks including titles from major publishers.

Virtual Faculty Collection www.tinyurl.com/facultydevelopmentcollection

This online multiprofessional resource supports the work of all clinical teachers, trainers and supervisors in London. It provides clinical educators with access to key journals and eBooks and is a joint initiative of London's three local education and training boards.

Trip www.tripdatabase.com

Trip is a clinical search engine designed to allow users to quickly and easily find and use high-quality research evidence to support their practice and/or care.

NICE Evidence www.evidence.nhs.uk

The main aim of NICE Evidence Services is to provide easy access to a comprehensive evidence base for everyone in health and social care who takes decisions about treatments or the use of resources – including clinicians, public health professionals, commissioners and service managers – thus improving health and patient care.

The Cochrane Library www.thecochranelibrary.com

The Cochrane Library contains high-quality, independent evidence to inform healthcare decision-making. It includes reliable evidence from Cochrane and other systematic reviews, clinical trials, and more. Cochrane reviews bring you the combined results of the world's best medical research studies, and are recognised as the gold standard in evidence-based health care.

British National Formulary (BNF) www.evidence.nhs.uk/formulary/bnf/current

The British National Formulary (BNF) provides UK healthcare professionals with authoritative and practical information on the selection and clinical use of medicines in a clear, concise and accessible manner. The BNF for Children (BNFC) presents essential practical information to help healthcare professionals prescribe, monitor, supply, and administer medicines for childhood disorders.

NICE BNF and BNF for Children Apps <http://tinyurl.com/nicebnfapps>

These Apps are available to download for free from the Apple App Store or the Google Play Store. Users will need to enter their NHS OpenAthens username and password to activate the app and download the content to their mobile device.

NICE Clinical Knowledge Summaries <http://cks.nice.org.uk/>

This service provides primary care practitioners with a readily accessible summary of the current evidence base and practical guidance on best practice in respect of over 330 common and/or significant primary care presentations.

Healthcare databases

www.library.nhs.uk/hdas

Databases providing access to millions of references from the health care journal literature, including original research articles.

AMED

1985 to present - covering the fields of complementary and alternative medicine.

BNI
